WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

May 26, 2026

## Flash Flood Threat Southeastern U.S.

- More than 60 million people across parts of the South and Texas will face the threat of flash flooding this week.
- Since Friday, 6 to 8 inches of rain have fallen across parts of the Southeast.
- Soils are saturated across much of the South after last week's precipitation and are vulnerable to more flash flooding.
- A Level 2 out of 4 risk of flash flooding covers a corridor from New Orleans to southern Virginia through Wednesday morning, according to NOAA's Weather Prediction Center.
- Meanwhile, a new storm system is pushing toward the Southern Plains Tuesday and will stall over the region, triggering repeated rounds of heavy thunderstorms.
- Parts of North and Central Texas is in the bull's-eye of Tuesday's threat, with a Level 2 flood threat covering Dallas, Austin and San Antonio.
- On Wednesday, the flood threat will shift into Corpus Christi, Houston and Lake Charles, Louisiana.
- Storms are expected to target the same corridors from the Texas coast through the lower Mississippi Valley through Friday. Another widespread 2 to 3 inches of rain is expected through the workweek.

## Disaster Declaration Request

### Wisconsin

- Gov. Tony Evers announced on May 22<sup>nd</sup>, he has formally requested a disaster declaration from President Donald J. Trump in response to severe storms and flooding in April that caused widespread destruction throughout the state of Wisconsin.
- This request includes the following 19 counties for FEMA's Individual Assistance program: Bayfield, Brown, Buffalo, Jackson, Jefferson, Juneau, Kenosha, Manitowoc, Marathon, Milwaukee, Outagamie, Racine, Rock, Sauk, Vernon, Washington, Waukesha, Waupaca, and Winnebago counties. The Oneida Nation is also included in this request.
- The joint preliminary damage assessments for Individual Assistance in 19 counties and one tribal nation found 1,576 residential structures were assessed (648 affected, 548 minor, 439 major, 31 destroyed) with total damage costs estimated at more than \$9.8 million.
- Multiple rounds of severe thunderstorms and heavy rainfall brought large hail, tornadoes, high winds, and torrential rainfall to much of Wisconsin between April 13 and April 17, 2026. The
