WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

May 13, 2026

Severe Weather Outlook Northeastern U.S. & The Rockies

- Multiple areas of the East, Midwest and Rockies will face thunderstorms throughout the week and this week-end, including storms that could become damaging and dangerous.
- On Wednesday, some severe thunderstorms are forecasted from far southeastern Ohio to western and central Pennsylvania and western and central New York, southward through West Virginia, western Maryland and western Virginia.
- The main threat in parts of the Northeast during Wednesday afternoon and evening will be localized damaging wind gusts.
- The AccuWeather Local StormMax™ stated wind gust for these storms could be up to 70 mph.
- About 1,500 miles farther west, parts of the Rockies will face high winds and a risk of severe thunderstorms Wednesday afternoon and night.
- The greatest risk will exist across western Montana, where AccuWeather meteorologists are now forecasting a moderate risk of severe storms. Wind gusts in this area will be on the order of 70-80 mph within the strongest storms.
- The risk of severe thunderstorms will return to the Plains on Thursday.
- A couple of complexes of heavy-to-locally severe thunderstorms are likely to develop from Kansas, Nebraska and Iowa to Midwest Friday before the threat ramps up over the weekend.
