WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

May 15, 2026

Severe Storm Threat Central U.S.

- A more than 1,200-mile corridor from Wisconsin to Texas could see severe weather beginning Friday afternoon.
- More than 7 million people under the greatest risk of seeing large hail across Iowa and other parts of the Midwest and Central Plains.
- Supercell thunderstorms are expected to develop during the early evening and into the overnight, and could produce "monster" hail 3 inches in diameter, as well as tornadoes.
- NOAA's Storm Prediction Center (SPC) has issued a Level 3 out of 5 risk of severe thunderstorms for Central Iowa, including Des Moines, which could see 3-inch hailstones with any supercells that develop.
- A broader Level 1 threat stretches from Wisconsin through parts of North and West Central Texas, where isolated damaging wind gusts up to 70 mph are possible.
- Large hail, 2 inches in diameter, will be possible across a corridor from southern Minnesota and the Texas and Oklahoma Panhandles.
- 3-inch hail will remain the main threat through Saturday as severe storms reload over the Plains and parts of the Midwest.
- A Level 2 threat covers much of Nebraska and western and central Iowa, with a Level 1 threat expanding into Illinois, Indiana, Ohio and Kentucky.
- A similar pattern is expected to emerge Saturday with spotty storm coverage in the afternoon and supercells expected to consolidate by the evening when the threat of tornadoes starts to increase.
- The SPC is now warning that there is an "increasing chance of strong to intense tornadoes" on Monday afternoon in central Kansas into northern Oklahoma.

Wildfire Activity

Texas

- Mandatory evacuations are underway in Canyon, Texas, as a rapidly spreading grass fire scorches parts of the region.
- The Hunggate Fire began Thursday afternoon when a storm cell moved across Randall County, producing lightning that sparked a series of grass fires throughout the area.
- As of Thursday evening, the fire had burned more than 14,000 acres and is 10% contained with approximately 700 people evacuated.
- Mandatory evacuations have been issued for areas near Chaparral Villas in the Canyon area and near 13th Avenue in Randall County.
- The Hunggate Fire is one of three fires that started in Texas on Thursday.
